

## 附件 2：「Semiconductors, Global Trends, and Taiwan」國際研討會簡介

### **Semiconductors, Global Trends, and Taiwan** Taiwan Science and Technology Hub Conference in CES 2024

The Taiwan Science and Technology Hub (Taiwan S&T Hub) located at Stanford University with the aim to enhance mutual cooperation such as scientific research, innovation, and talent exchange between Taiwan and the U.S. Based on the rise of 5G and generative AI, the strength of Taiwan's semiconductor industry have received significant global attention.

To explore the global trend of next-gen semiconductors, their applications, and the business opportunities attracting international startups and investment, Taiwan S&T Hub especially hosts the international conference of Semiconductors, Global Trends, and Taiwan at the Consumer Electronics Show 2024. Also, participants can obtain the latest information regarding a Taiwan's \$10 billion program over the next decade to promote an investment in developing forward-looking semiconductor technology.

Date: January 8th (Mon.), 2024

Time: 09:00~09:30 Breakfast & Refreshment

09:30~11:30 Conference

11:50~12:30 Mingle & Refreshment
